- HTML5
- CSS3
- Tailwind CSS
- JavaScript
- React
- Firebase
- Node.js
- Express.js
- MongoDB
- Git & GitHub
- Responsive Design
- REST API

SUMMARY

Passionate MERN Stack Developer with skills in React, JavaScript, Tailwind CSS, Node.js, and MongoDB. I love building responsive and modern web applications with clean user experience.

PROJECTS

DocTime – Doctor Appointment Booking System

Developed a full stack doctor appointment booking platform using React, Node.js, Express.js, MongoDB, Firebase Authentication, and JWT protected routes. Users can register, book appointments, manage bookings, and access a responsive dashboard.

SUNCART – SUMMER ESSENTIALS STORE

Built a responsive eCommerce web application using React, Tailwind CSS, and Firebase authentication with product management and protected routes.

KEENKEEPER

Created a React-based friend management application with interaction tracking, activity timeline, charts, toast notifications, and responsive UI design.

GITHUB ISSUE TRACKER

Designed a GitHub-style issue tracker interface using React and Tailwind CSS with structured layouts, issue management features, and modern UI components.

LANGUAGE

- English
- Bangla

TOOLS & TECHNOLOGIES

Frontend: React, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, MongoDB

Tools: Git, GitHub, Firebase, REST API
